Dear Stic sequence searchers,

Please search the sequence search request set forth below. I have examined the case and the search is required for the examination of this case because it is in mid-prosecution.

Thanks,

Mike Pak

Hi Mike,

This is on my amended docket, and will probably be allowed. It has two different splice variants, and they are claiming very small fragments of the proteins, and I need the fragments searched to continue with the prosecution. Please forward this request to STIC.
